

APPLYING SOLID BLACK IN YOUR ARTWORK

IMPORTANT:

1. Whenever you are applying a **solid black (100% K)** area on a 4 Colour print job, we highly recommend that you should change the black setting according to the combination of **C 40, M 30, Y 30, and K 100**. This will help in preventing the image showing through by adding dense to the black.
2. Refer to illustrations below for a better understanding.

Appropriate Solid Black Setting

C 40, M 30, Y 30, and K 100

Normal Black Setting

K 100
