

ARTWORK PREPARATION FOR ROUND CORNER JOB

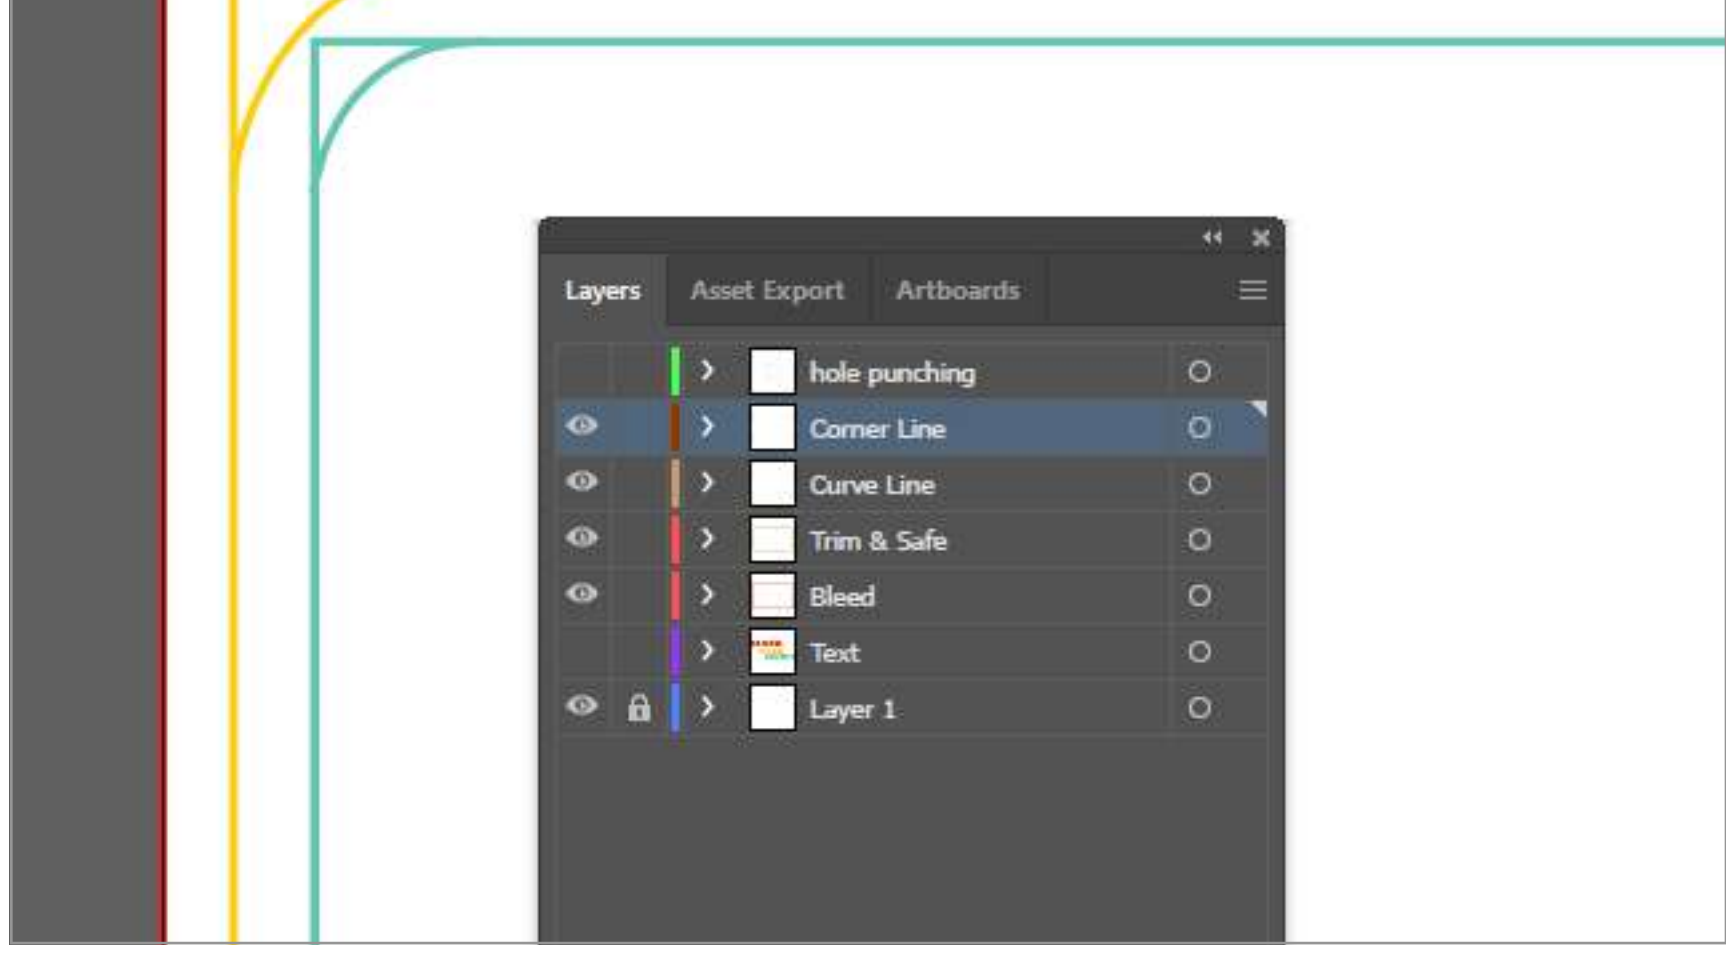

STEP 1

Select the Size of your Template, and download it from our website.

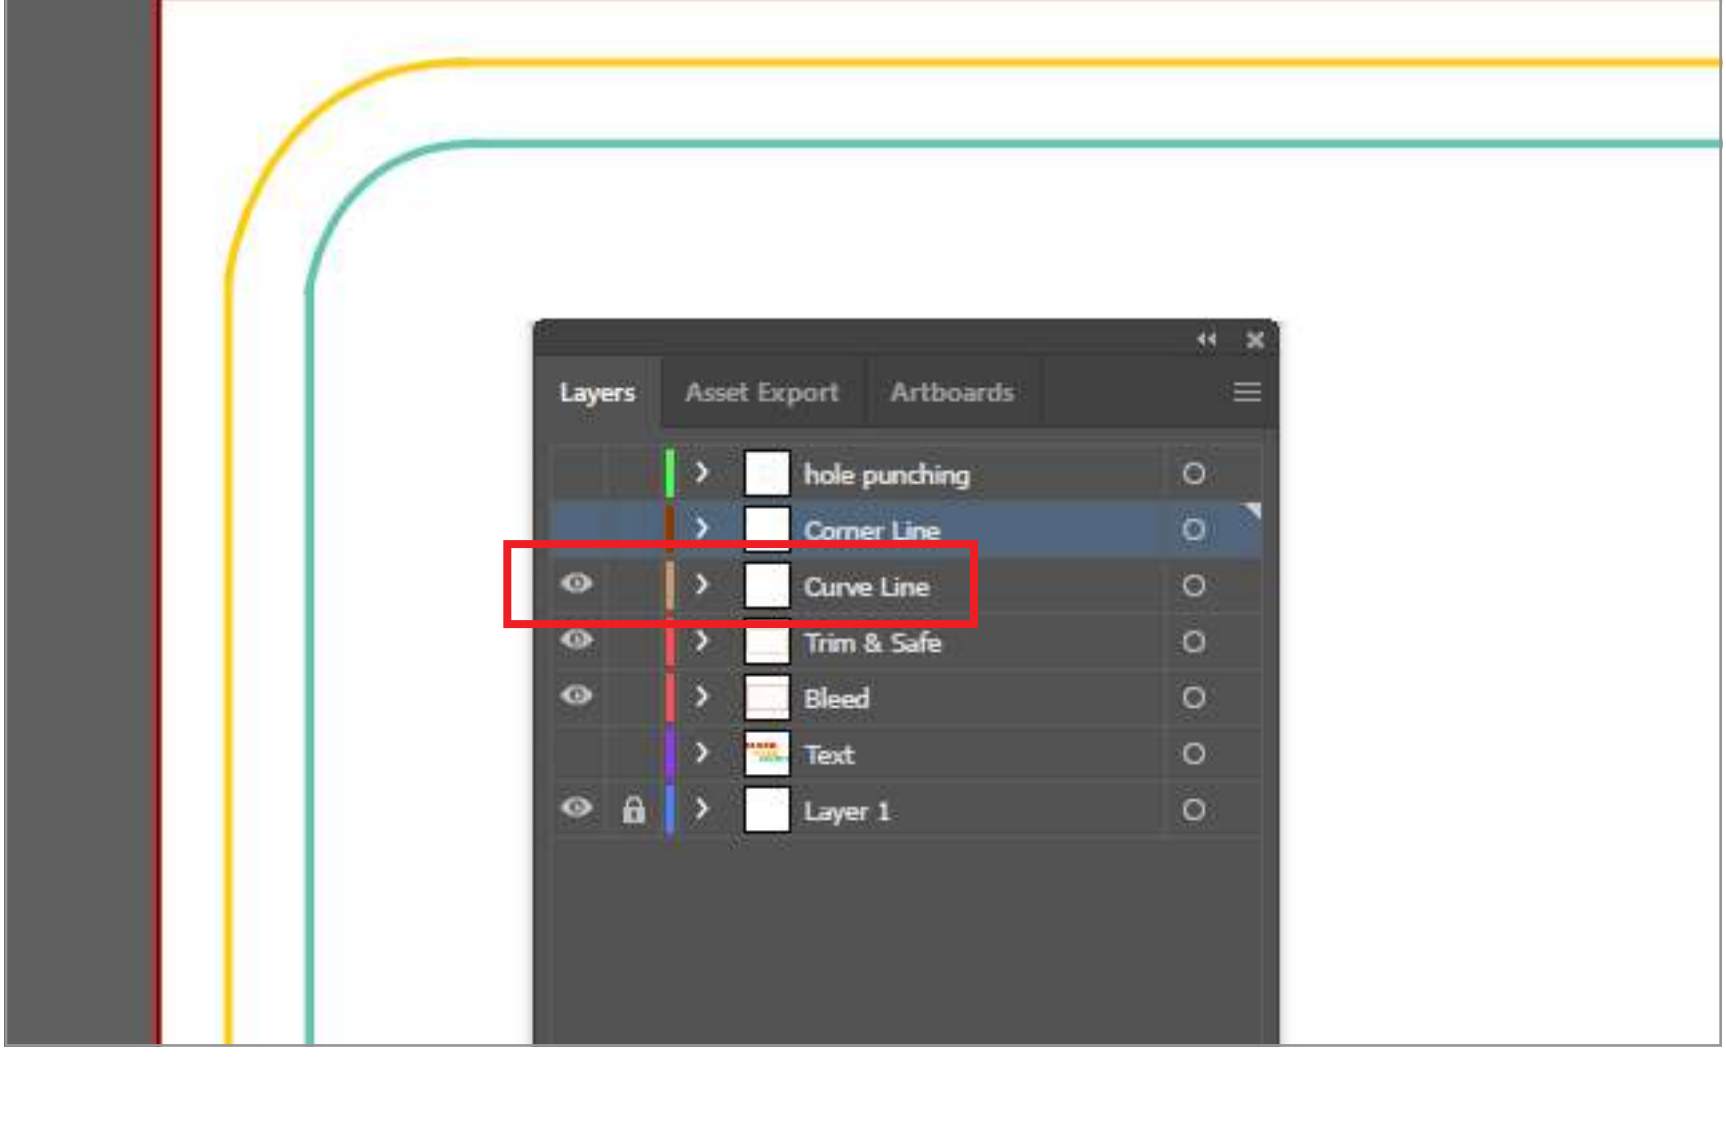

STEP 2

Select the types of round corner that you wish to apply on your prints. You may apply it on only one corner, any two corners, or three corners, and also, all corners. Guidelines are shown as following:

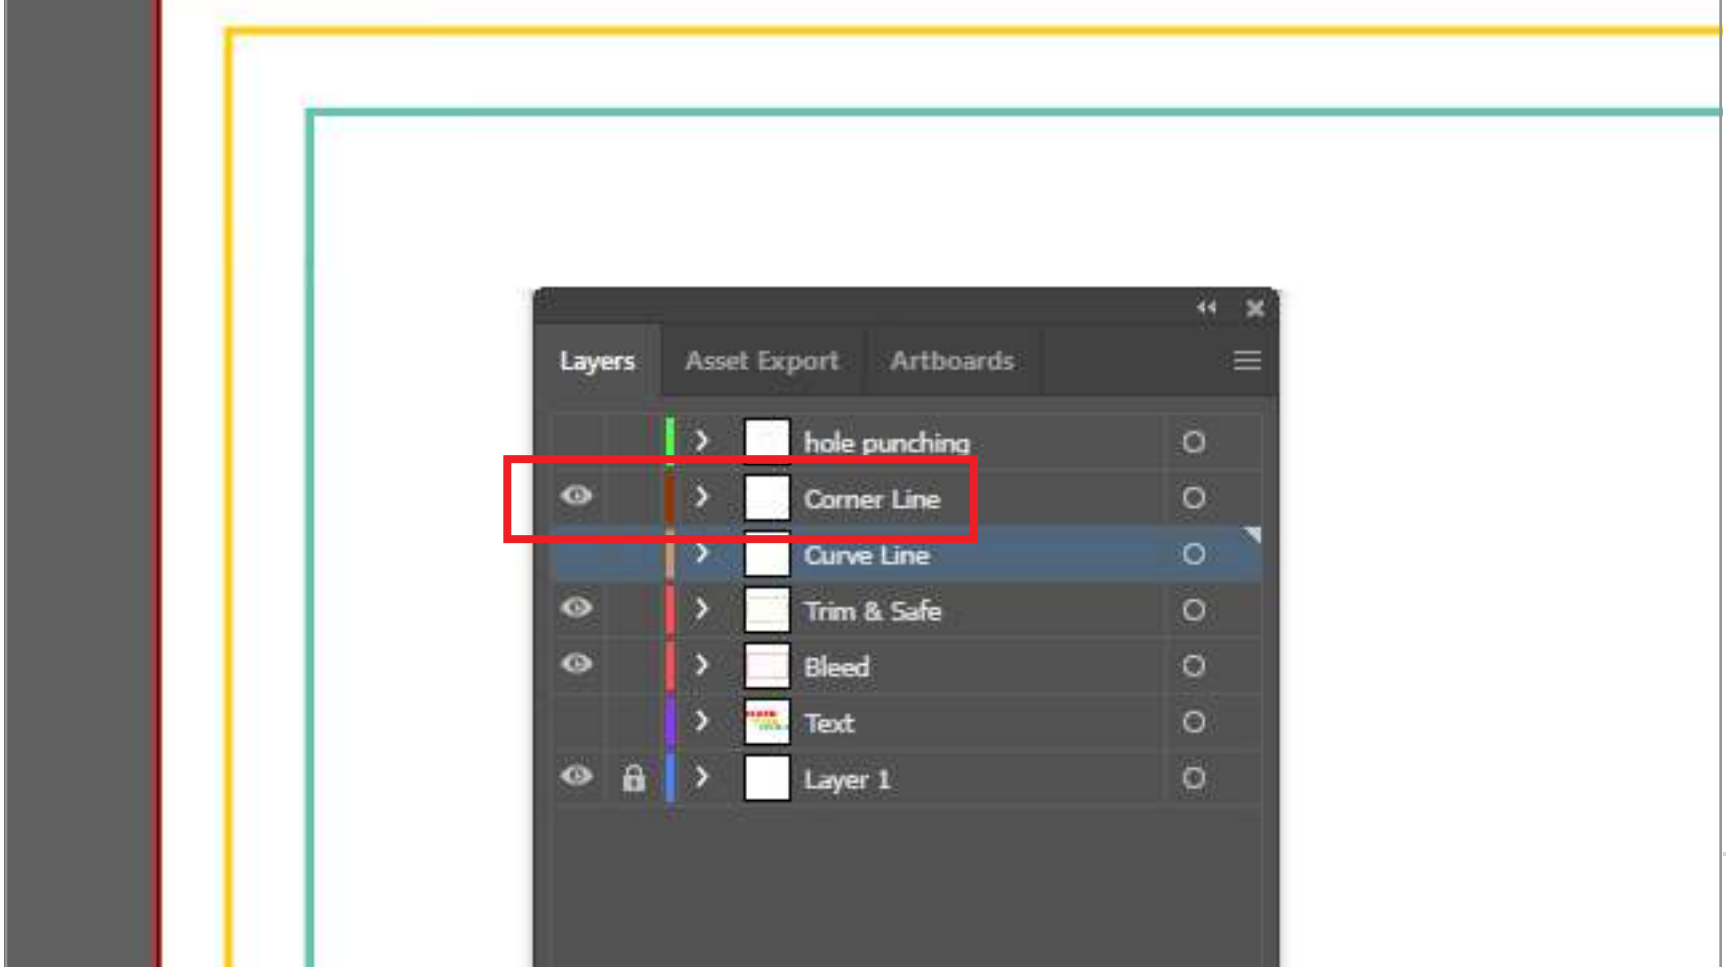

2.1 Open the Templates that you have downloaded, and you will find these guidelines in the template.

2.2 To prepare a round corner artwork, you are required to **Deselect the Corner** position and make sure **Curve** is selected.

2.3 If you are not applying any round corner in your artwork, Deselect Curve, and make sure **Corner** is Selected.

STEP 3

Remove the guidelines, and then save your file into PDF format. For round corner jobs, you are required to submit three files in total.

File 1: Combination of Complete Artwork (CMYK) and Round Corner Die Line

File 2: Colourful Printing Artwork only (CMYK)

File 3: Round Corner Die Line only

Please do a final check before saving your file into PDF.

File 3

STEP 4

Once your artwork is ready, you may now proceed for ordering through our website. You may just select **Yes** in the Round Corner part, and that's all to get your order complete. No matter its one round corner or all round corner, the ordering method will be same for all.

STEP 5

Upload your artwork to get your print done.
