

FINAL ARTWORK PREPARATION GUIDE

STEP 1 Download the **Product Template** from our website according to your desired printing size.

STEP 2 Apply your design into our the template according to the guides. You may read through our guidelines and in the **Section of Guides** for Closing Artwork. Some specific products may require different requirements, so please refer to their guidelines respectively for more information.

STEP 3 Save the Final Artwork in **PDF** format.

Merge the background design and export it to **TIFF file** at **300dpi**. Import the TIFF File to replace the existing background design.

Apply the setting of **Curve / Path / Outline** to all fonts.

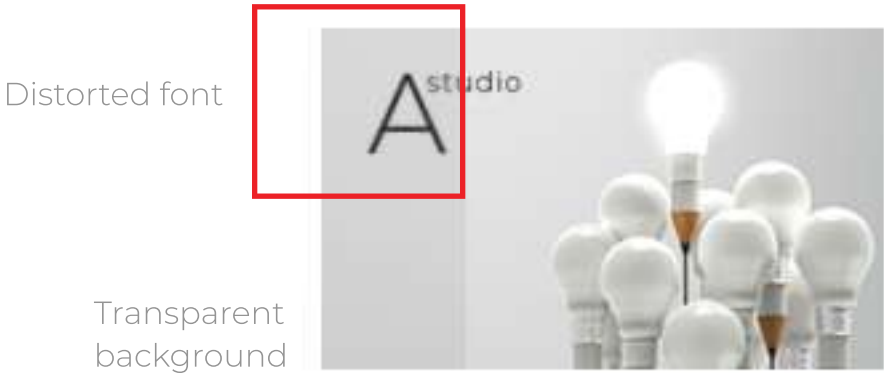

Save or export file to **PDF format**.

Final Artwork in **PDF format** ready to print.

Do be aware that adding text onto transparent background might **lead to font distortion**. To keep your font safe from distortion, follow the steps above to merge all into a background image.

STEP 4 You are now ready to **Order Online**.
