

# HOT STAMPING ARTWORK PREPARATION

## Important Requirements

- Image to be Hot Stamped must be located within the Safe Zone.
- For Business Cards, Image to be Hot Stamped are required to:  
Landscape Business Card: **4mm** from right trim size, and **5mm** from bottom trim size.  
**4mm** from left trim size, and **5mm** from top trim size.  
Portrait Business Card: **5mm** from right trim size, and **4mm** from top trim size.  
**5mm** from left trim size, and **4mm** from bottom trim size.

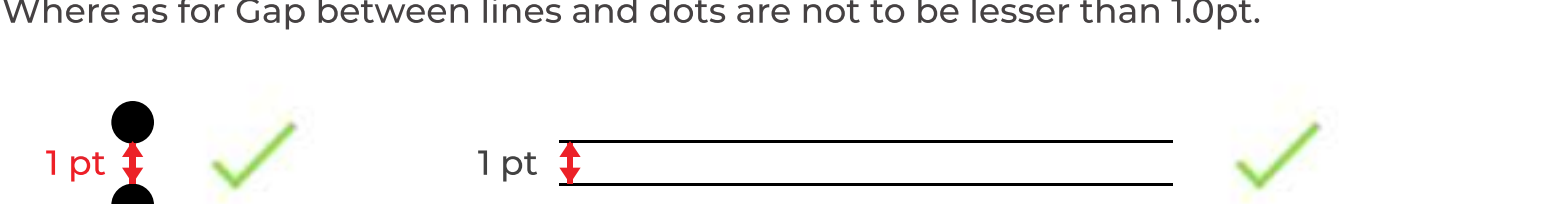

(Refer to Section Below: Hot Stamping Safe Zone)

- Hot Stamping image can be applied to the full bleed size, but do keep the important text within the Safe Zone as they are going to be trimmed to the End Product Size.

- Font Size of at least 7.0pt  
Its highly not advisable to bold the fonts when you are using the minimum font size. It might look coarse and thick, and exceed the bleed. However, while applying Reverse Effect on hot stamping area, do avoid using Serif fonts.

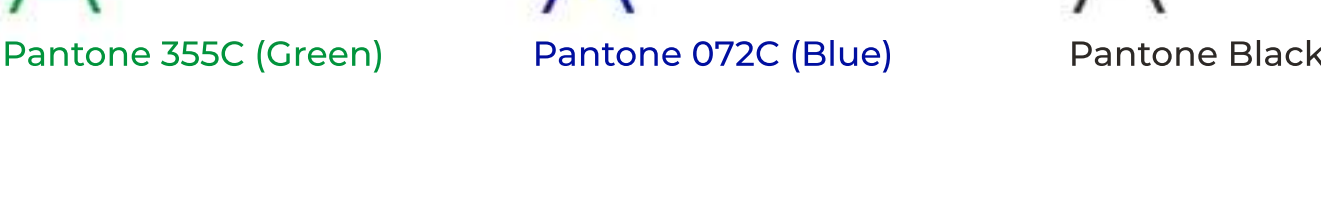

When you wish to use San Serif Fonts, you may bold it and apply a minimum size of 10pt and a line Thickness of 1pt. Do take note that the minimal line thickness is 0.5pt.

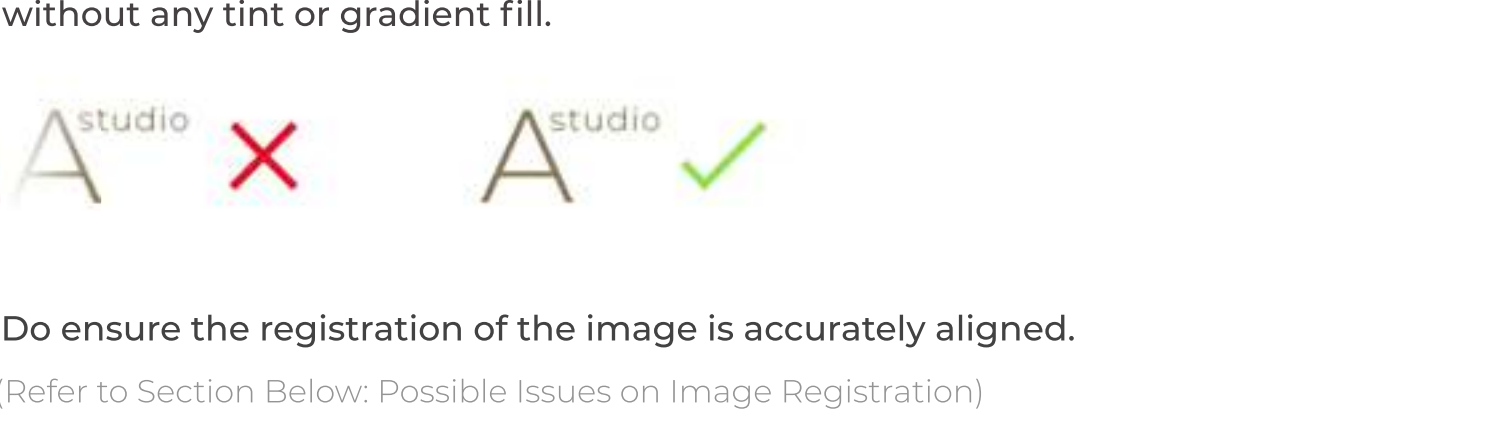

Dot thickness are not to be smaller than 1.5pt.

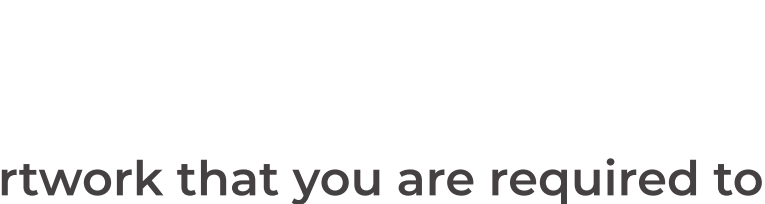

Where as for Gap between lines and dots are not to be lesser than 1.0pt.

- The Hot Stamped images are to be either one of the following colour:

- For all Hot Stamped images, it must be prepared in Vector Format, and filled with solid colour without any tint or gradient fill.

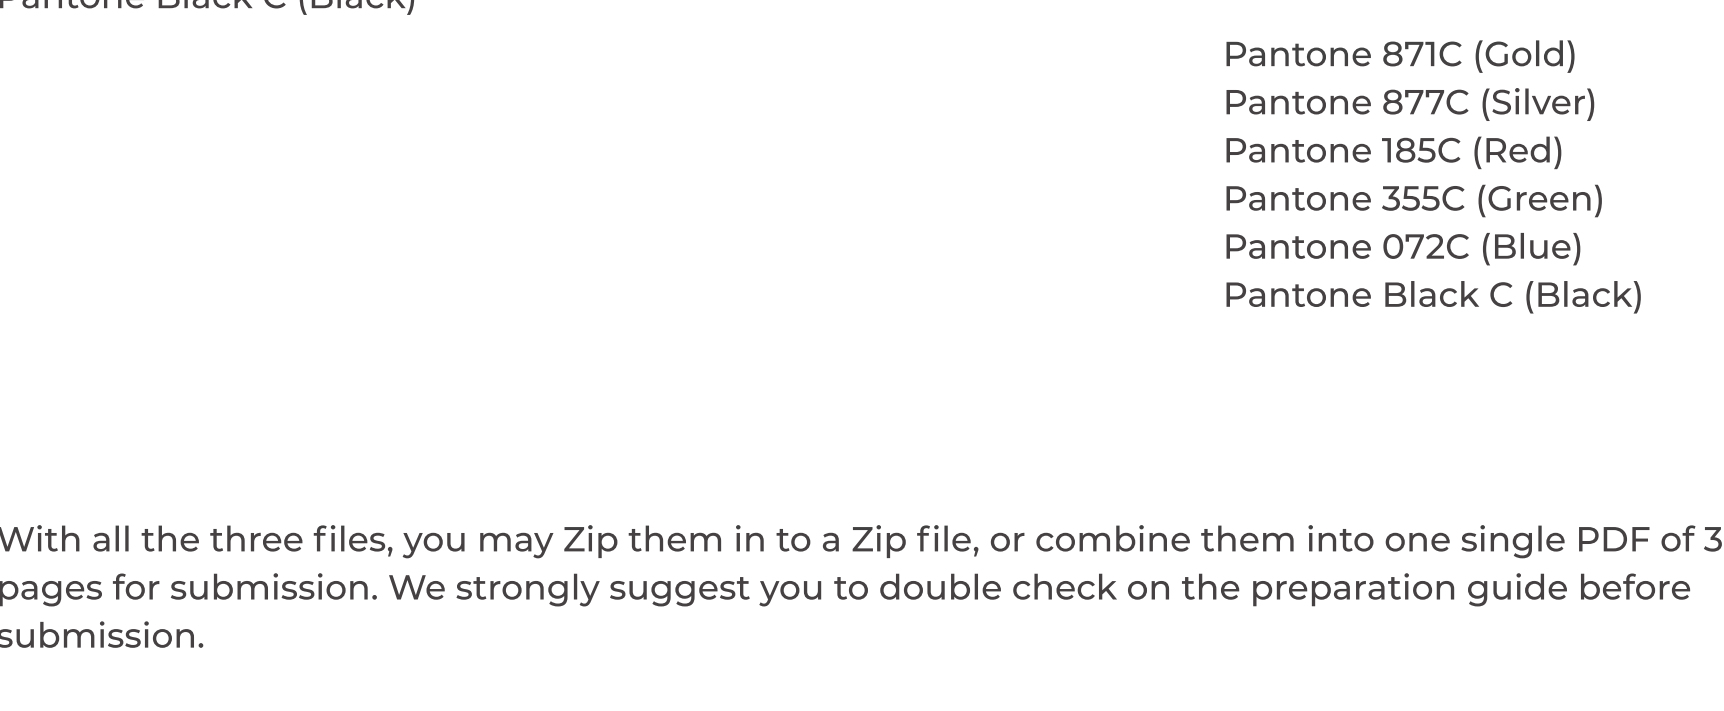

- Do ensure the registration of the image is accurately aligned.

(Refer to Section Below: Possible Issues on Image Registration)

## Artwork that you are required to prepare

For Hot Stamped job, you will need to prepare 3 PDF files:

- File 1: File for full artwork  
File 2: File for the artwork without Hot Stamped image  
File 3: File for the image to be Hot Stamped only.

**File 1**  
This file shall contain a full artwork including your image to be Hot Stamped.

The stamped image must be a maximum of 2 colours only.  
Colour choices are as below:

Pantone 871C (Gold)  
Pantone 877C (Silver)  
Pantone 185C (Red)  
Pantone 355C (Green)  
Pantone 072C (Blue)  
Pantone Black C (Black)

**File 2**  
This file shall contain the artwork after removing the image to be Hot Stamped.

This artwork will be used and referred in the purpose of Full Colour Printing only.

**File 3**  
This file shall contain only the artwork of the image to be Hot Stamped only.

While preparing this artwork file, please ensure that the image is positioned accurately as per your File 1. This is to avoid any possible misalignment issue on your Hot Stamping job. Again, you are to choose at maximum 2 colour for your Hot Stamped image only.

Pantone 871C (Gold)  
Pantone 877C (Silver)  
Pantone 185C (Red)  
Pantone 355C (Green)  
Pantone 072C (Blue)  
Pantone Black C (Black)

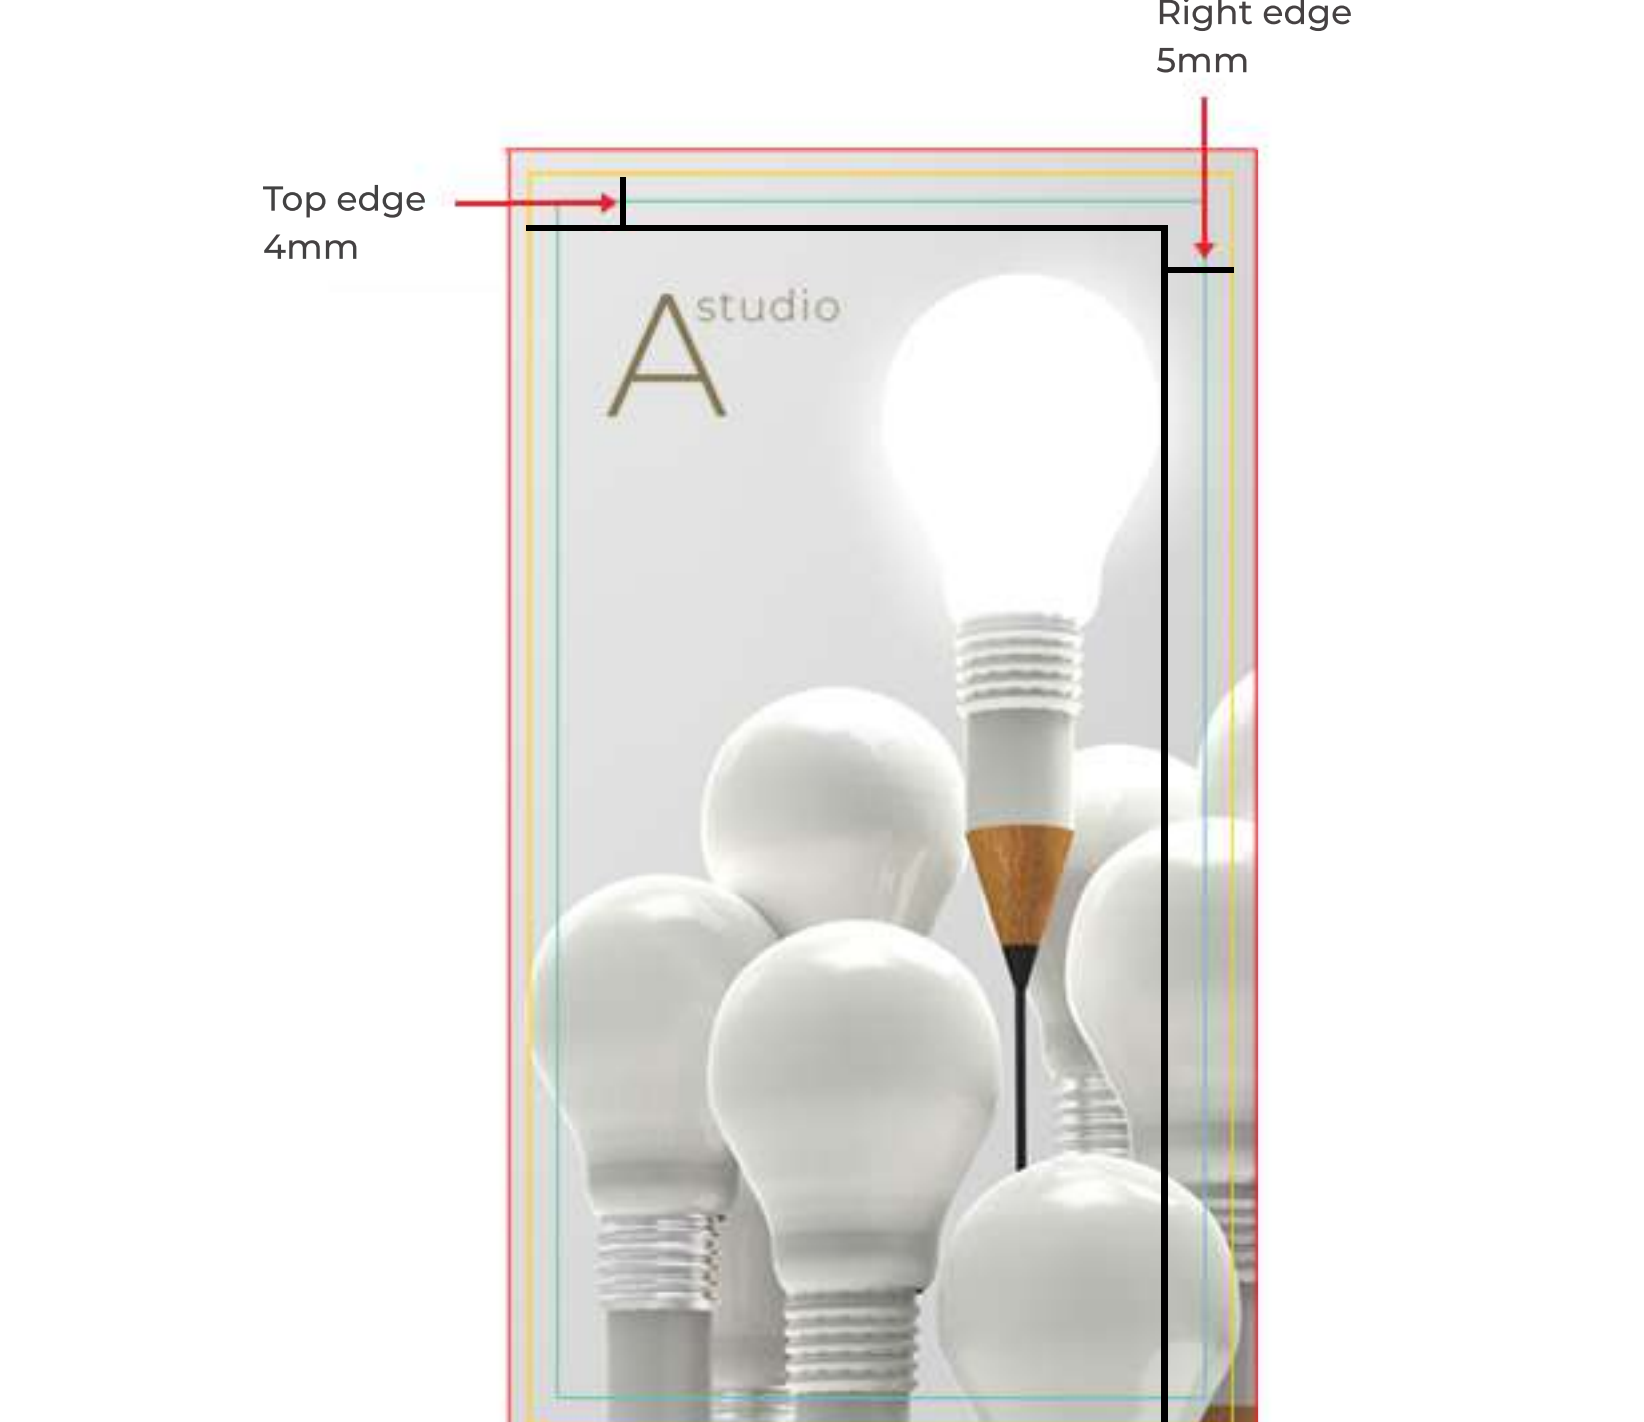

With all the three files, you may Zip them in to a Zip file, or combine them into one single PDF of 3 pages for submission. We strongly suggest you to double check on the preparation guide before submission.

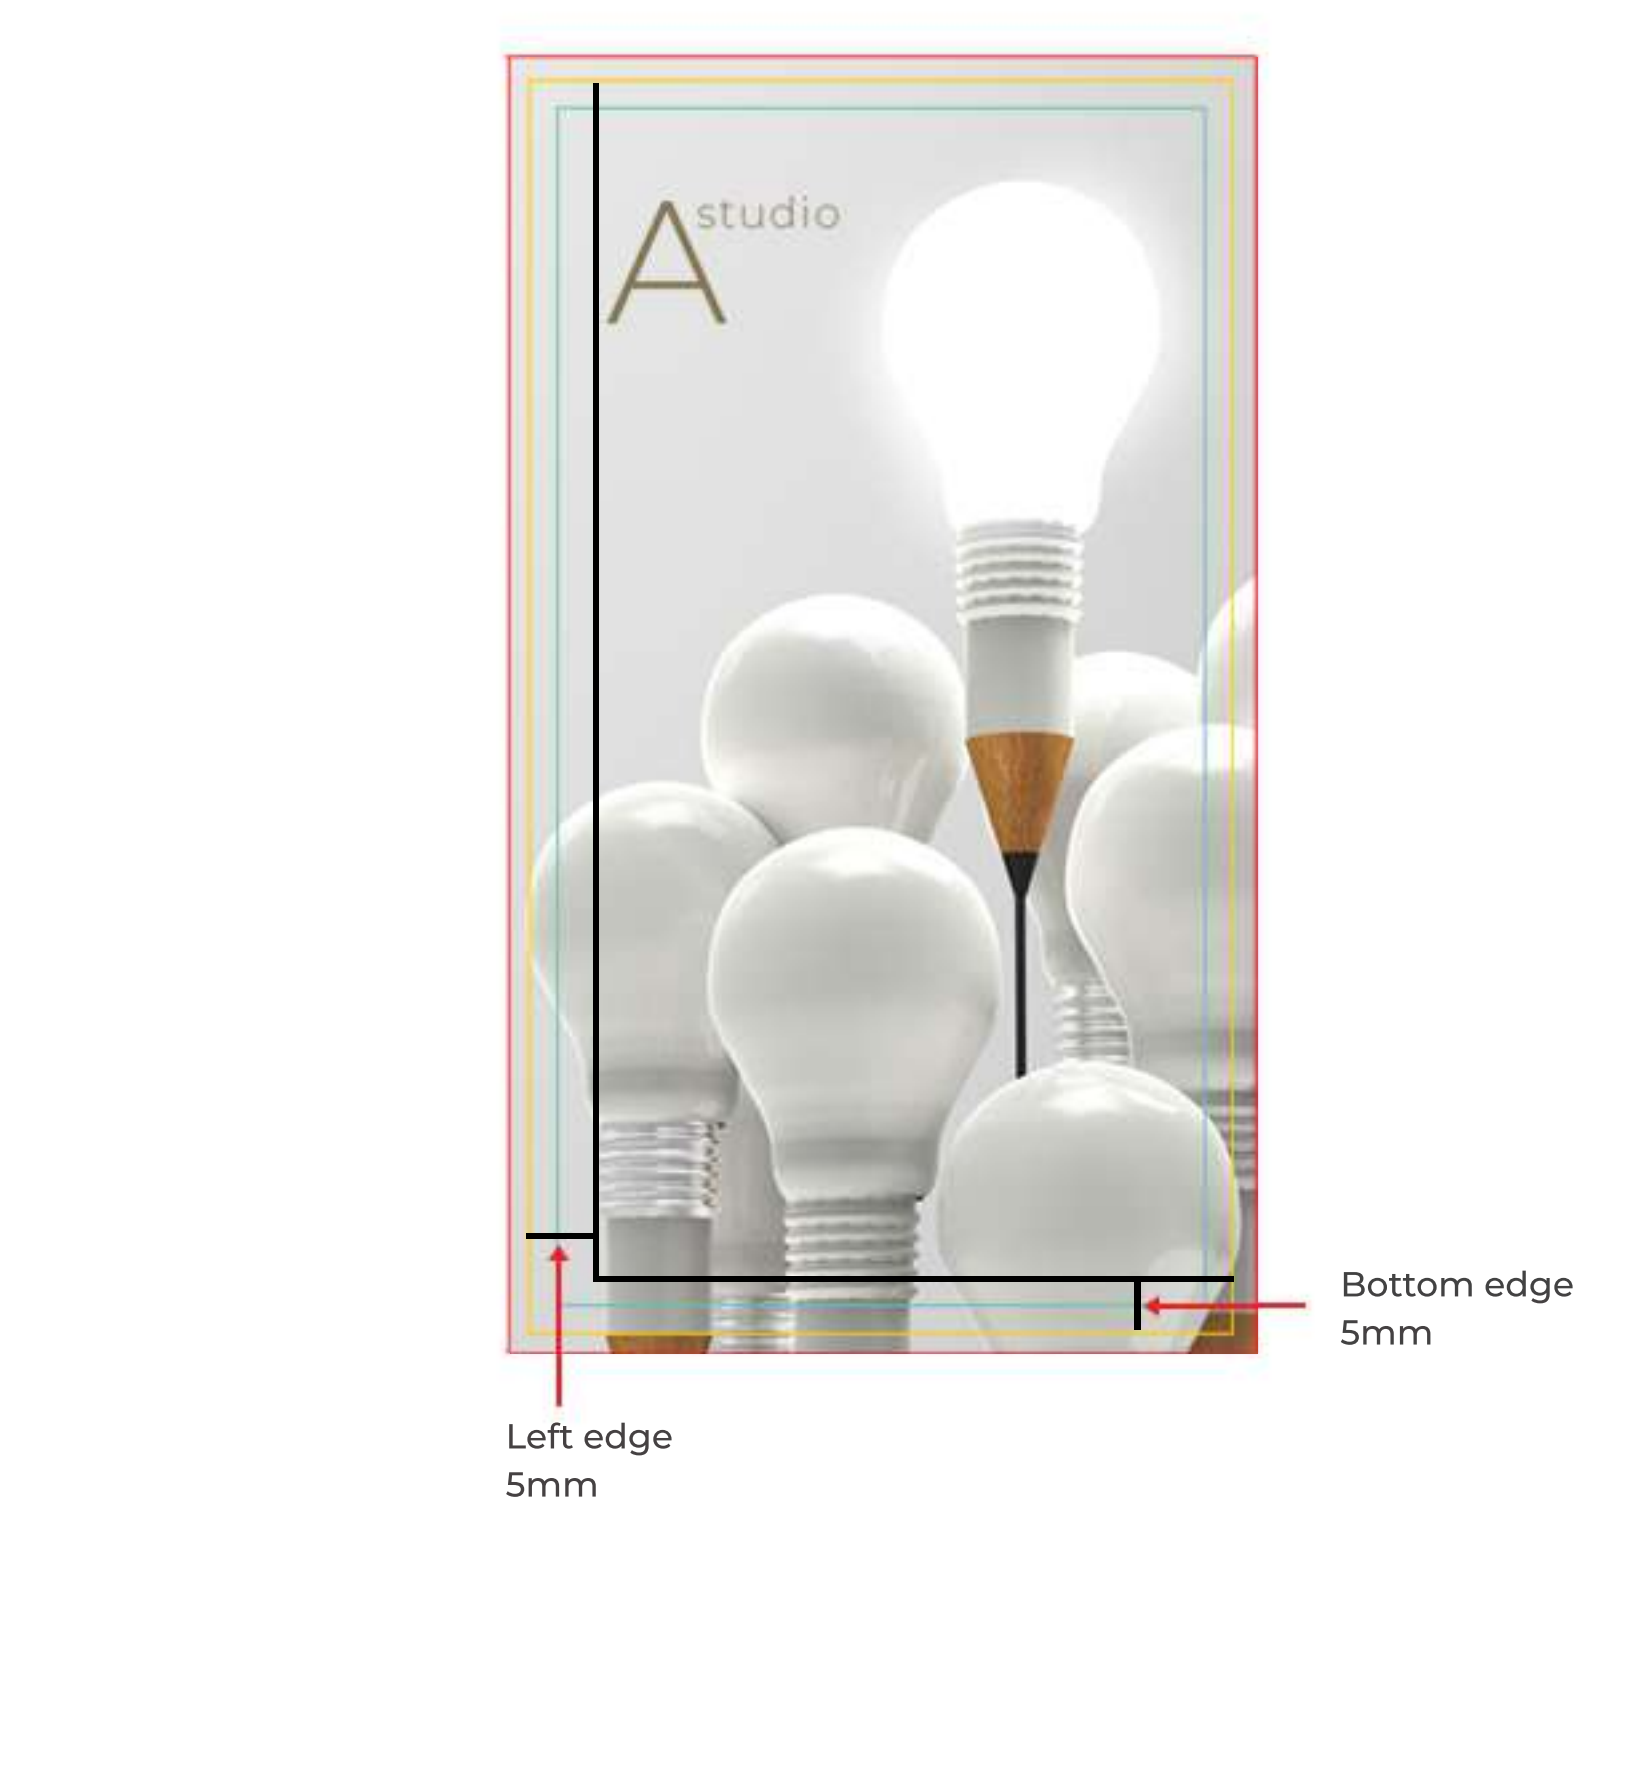

## Hot Stamping Safe Zone

The hot stamped image may be left out to the bleed size, but do keep your important words and images within the L Shaped Safe Zone.

## Possible Issues on Image Registration

Hot Stamping jobs requires an accurate registration on all your stamped images or fonts. Here are some issues that we encountered throughout our Hot Stamping experience. We will not accept the artworks with the following issues, and it might be needed for your amendments for us to proceed to production. Do refer to illustrations below.

Desired Print Outcome

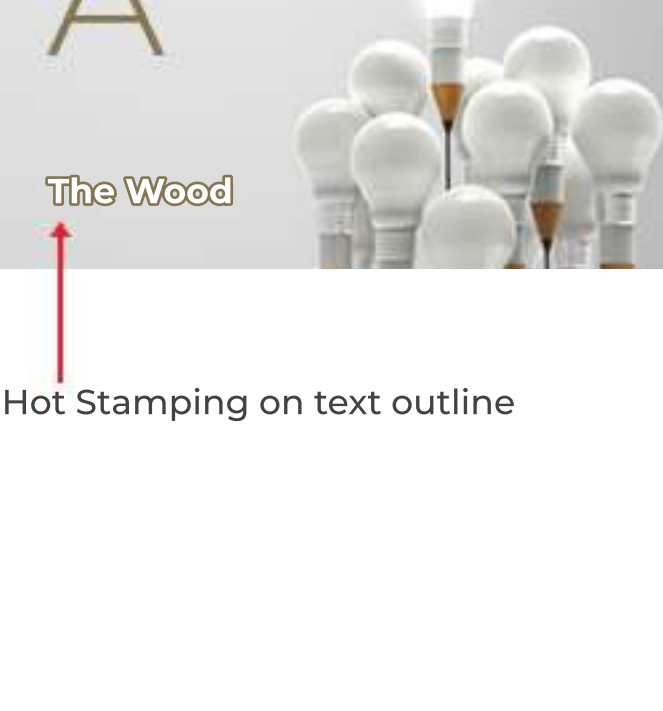

Hot Stamping on texts with outline

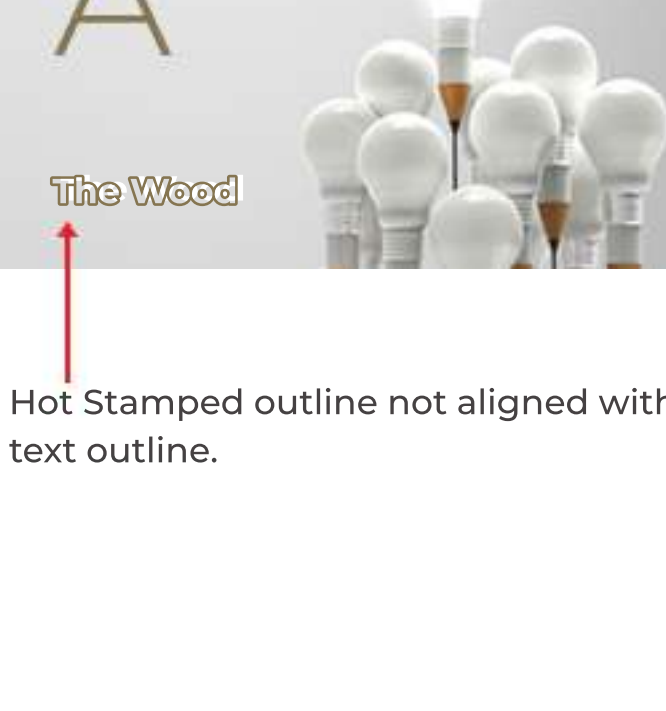

Possible Issues

Hot Stamped texts overlaps on the outline

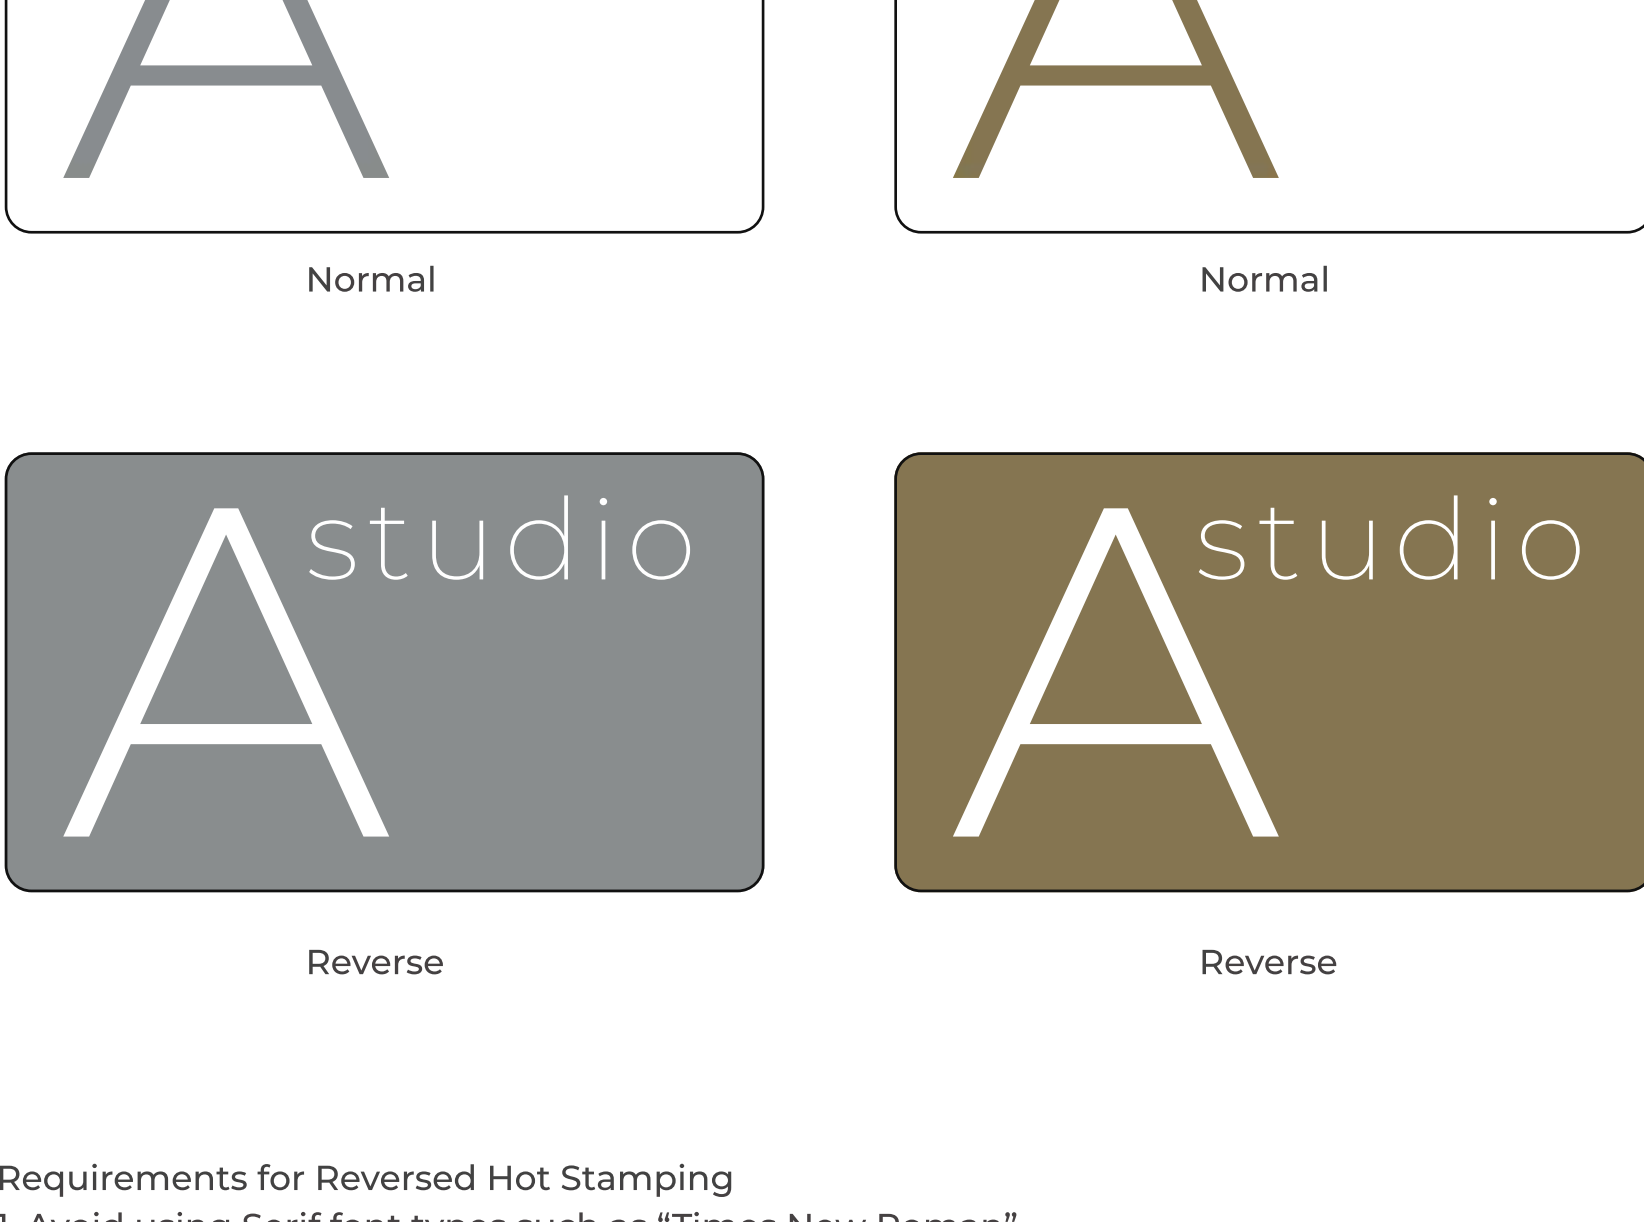

Hot Stamping on text outline

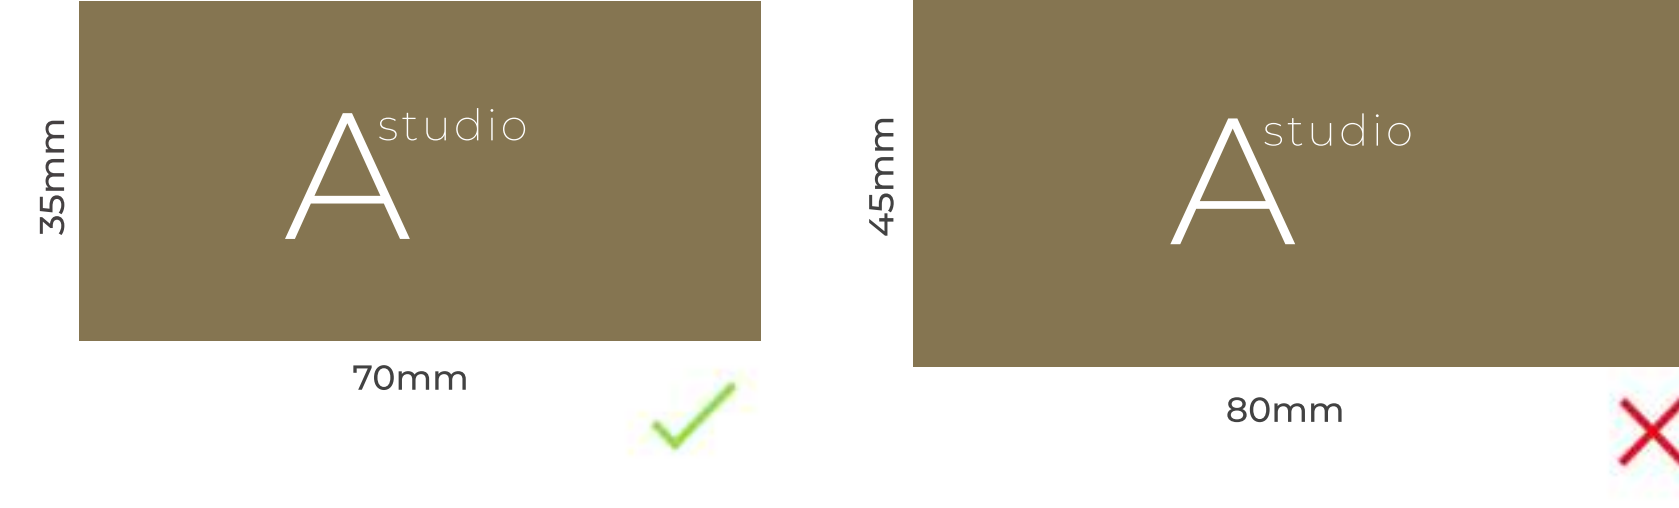

Hot Stamped outline not aligned with the text outline.

## Reverse Effect

Referring to the illustrations below, these are the example of Reversed Hot Stamping

Requirements for Reversed Hot Stamping  
1. Avoid using Serif font types such as "Times New Roman"  
2. Use only Sans Serif Fonts with Bold such as "Arial"  
3. Use at least a minimum of 10pts for font size, and 1pt for line thickness.  
4. While using Matte Lamination Art Per / Art Card, there is a condition to the reverse area of not exceeding **35mm (H) x 70mm (W)**. Refer to the illustration below.

- For certain materials below, it is not applicable for them to be used for Hot Stamping jobs. Refer to list below:

- Uneven surface paper materials (such as Conqueror Papers or Cards, Fine Card Suwen, and Linen Cards).
- Plastic materials
- Metallic Cards
- Super White
- Gloss Lamination Surface.

- You may apply Hot Stamping on both sides of your business cards. Hence, you might need to prepare 3 files for each side as per detailed in Section above (Artwork that you are required to prepare).
